September To-Do's

Right now is the perfect time to start on your college applications. Make sure you have narrowed down your list to 5 schools that you are interested in applying to. Your list can include **2 safe schools** (you know you will get accepted, and they are on the more affordable side) **2 target schools** (you might have to put a little more effort into your application and scholarships but you can absolutely see yourself attending there) and **1 reach school** (you will have to turn in an AMAZING application and work really hard on scholarships to be able to go there).

Community College applications can be found on their websites. University applications can be found on commonapp.org

Tips & Tricks

Create a Google Drive folder to put all of your college/scholarship materials in with your personal Gmail.

- College/Scholarship Essays/short answer responses
- Resume
- Letters of Recommendation
- Transcript

ALWAYS USE YOUR PERSONAL GMAIL WHEN APPLYING!

ALWAYS have someone (or multiple people) review your college/scholarship essays. I am more than happy to give you feedback! It is the most important part of your college application!

Start with Colorado/Local Scholarships, those are less competitive and “easier” to get! Then check out the Diversity Based and then the National!
